# THE REPORT

The purpose of the *Fundação Galp's* report is to disclose and communicate to all stakeholders, with transparency and rigour, its growth and contribution to the sustainable development of the communities where *Fundação Galp* operates. The contents presented relate to the 2021 calendar year, including, whenever relevant, appropriate information on the main global indicators of each project.

This report identifies the main social impacts of the projects developed by *Fundação Galp*, together with its partners and the communities, in favour of the creation of social value.

Aware that the longevity of the relationship with its stakeholders is based on the principles of transparency and trust, this activity report is submitted to a consistency verification of the information contained in the

Activity Report with the Financial Statements, by Ernst & Young Audit & Associados, SROC, S.A. *Fundação Galp* believes that the information disclosed will contribute to the strengthening of its relationship with the community and other stakeholders.

## YOUR OPINION

*Fundação Galp* intends to establish a continuous and inclusive dialogue with its stakeholders, valuing and seeking to meet their expectations and needs. You can submit your opinion on this report, as well as clarify questions about its projects, through the following contacts:

Fundação Galp, Rua Tomás da Fonseca,  
Torre C, 1600-209 Lisboa

# OUR PURPOSE

---

Together we have the strength to trace a common path, where there is a necessary balance between the growth and well-being of the population, their energy needs and the preservation of ecosystems. Together we can think globally, be aware of the weaknesses and inequalities of many and take action. Together we have the opportunity to transform, strengthen and create paths of hope, of a renewed future for our communities.

In cooperation with our social partners, we continue to invest in the communities where we operate, with the main objective of contributing to the achievement of the Sustainable Development Goals (SDGs). Alongside our patrons, we continue to invest in access to quality, inclusive and transformative education, in mobilising communities for the sustainable use of energy and the protection of biodiversity.

We face a global and transgenerational challenge and believe that education and knowledge sharing are key to much-needed change. We need to learn to live together sustainably. We need to act responsibly based on the understanding that what we do today has future implications on people's lives and for the planet.

The return on investment in education is undeniable, both in terms of personal empowerment and social, environmental and economic impact. There is, therefore, no way of not fully embracing this cause.

Even in the context of response to social emergencies, such as those resulting from the Covid-19 pandemic or the armed conflict in northern Mozambique, in addition to the cooperative humanitarian aid that we promote, our focus continued to be directed at creating the conditions for access to inclusive and equitable education. Helping to build infrastructures to support education, investing in merit-based scholarship programmes and mentoring programmes, and in initiatives to integrate the most vulnerable families into host communities. Thus, enabling the necessary basic conditions for children and young people to return to school.

In Portugal, we continued to invest in education programmes focused on empowering young people to respond to the climate emergency, valuing their more sustainable behaviours and attitudes and promoting in-school environment entrepreneurship and innovation. In 2021, we directly impacted the lives of more than 37 thousand people, worked together with our social partners and relied on the invaluable commitment of 797 Galp volunteers, who brought their

energy, skills and human warmth to our communities. To all of them, a big thank you.

A special word of appreciation to the founding group, the Galp Group, and in particular, to the three sponsoring companies (Galp Energia SGPS, S.A., Galp Gás Natural, S.A. and Petrogal, S.A.), which provided *Fundação Galp* with the financial means necessary to develop its activity in 2021. The members of *Fundação Galp*'s Corporate Bodies should also receive our gratitude for their contribution and encouragement throughout the year.

It is this dedication and overall commitment that inspires and encourages us to move forward.

Lisbon, 29 April 2022  
The Board of Directors

# THAT POWERS THE FUTURE

*Fundação Galp* has three lines of social action at its core, based on the goals of sustainable development of the communities where it operates.

## Education and knowledge

Enable access to quality education and raise awareness in communities about the importance of educating children and young people. Recognise the merit of students and teachers and encourage entrepreneurship and social innovation through knowledge.

## Sustainable Energy and Biodiversity Protection

Promote the development of communities by ensuring access to and responsible consumption of energy, and contribute to the preservation and appreciation of the planet's natural resources.

## Social Emergencies

To support communities in situations of social emergency, through humanitarian aid, in cooperation and partnership, for their development.

# A GLOBAL MISSION

As a catalyst for change, our energy supports and responds to the worldwide needs, wherever they exist.

## GOVERNANCE

## GOVERNANCE CODE OF ETHICS

---

*Fundação Galp* is a non-profit private foundation of social interest, established in 8 January 2009, under Código Civil Português and complying with the requirements from “Lei-Quadro das Fundações”, having as its founders the following entities:

- Galp Energia, S.G.P.S., S.A.
- Galp Exploração e Produção Petrolífera, S.A. (since 23.06.2021 designated “Galp West Africa, S.A.”)
- Petróleos de Portugal - Petrogal, S.A. (since 06.09.2018 designated “Petrogal S.A.”)
- Galp Gás Natural, S.A.
- Galp Power, S.A. (meantime merged into Petrogal, S.A. with effects as of 02.11.2021)
- Galp Energia, S.A

On 22 July 2018, *Fundação Galp* was granted the status of public utility for another five years. Also, on the institutional theme, it should be noted that *Fundação Galp* has been obtaining statements of recognition of the cultural interest of its various activities, issued on 23 October 2013 by the Portuguese Secretary of State for Culture and on 30 December 2016 and 7 February 2018 by the Portuguese Minister for Culture.

*Fundação Galp* is a legally independent entity, with its own governance model, defined in its Articles of Association. However, it is an entity linked to the organisational culture of the founding group with which it shares its name.

*Fundação Galp* operates primarily in the areas of energy and environment, education and culture, and social development.

In its Code of Ethics, approved and published in 2018, *Fundação Galp* outlines the fundamental ethical guidelines for its operations, from a perspective of assuming ethical and conduct commitments towards:

- (1) the people of the Foundation;
- (2) the will of its founders and from other funders of Fundação;
- (3) the Foundation’s partners;
- (4) the Foundation’s suppliers;
- (5) the beneficiaries of the Foundation’s activity;
- (6) the society in general, present and future.

The Code of Ethics states the importance of clearly defining the principles and responsibilities that *Fundação Galp* recognises, accepts, shares and assumes in its relations with its people and all other stakeholders in the foundation’s purposes, considering the specific nature of its institutional mission. It enshrines, for each of the situations listed therein, commitments and responsibilities, but also, and equally importantly, how they are to be legally implemented.

## CORPORATE BODIES

## PROPOSAL FOR APPROPRIATION OF RESULTS

As at this date, the composition of the corporate bodies of *Fundação Galp*, elected for the four-year period 2019- 2022, is as follows:

### Board of Directors
